

WHITE PAPER

What is FOODBANK?

FOODBANK is a cryptocurrency running on the Binance Smart Chain Network with the aim of providing funding assistance to foodbanks worldwide.

FOODBANK was started as a reaction to the growing number of foodbanks currently in existence in what should be rich countries. Countries where despite the apparent national wealth, even those working two jobs somehow do not earn enough to feed their families. FOODBANK was started I guess out of frustration and bewilderment that someone working a full time job in the UK or USA or other “first world” country could actually find themselves unable to pay for food. How can that even be possible?

FOODBANK was created to see if perhaps, we, the crypto community could fund local foodbanks and help our own local communities.

There are many tokens where the charity is some far off land and people you do not know and where any funds raised are spent without the holders seeing the actual benefit of the work the cryptocurrency is doing.

FOODBANK aims to be different. To provide funding to projects and foodbanks local to the major holders of the coin or local to groups of holders who collectively ask for funding in their local area.

FOODBANK was launched on Saturday 18th September 2021 on the Binance Smart Chain Network

TRANSPARENCY

Foodbank is decentralized and supported by a growing community of enthusiasts. We encourage open communication, and our team are available to answer any questions via AMA's, telegram, Facebook, and twitter. We trust that the more you know about us and the more you know about the token the more you will come to trust your investment capital to us.

TRUST

In cryptocurrency market trust is paramount. There are so many rug pull schemes and honeypot tokens out there that we recognise that trust is the keystone upon which our token must be built. Trust takes time to build and so we anticipate the project developing slowly over time as holder numbers grow and our community grows to trust and believe in our intentions.

COMMUNITY

At Foodbank we believe that community is everything. Foodbank strives to include everyone from around the globe. We have multiple telegram channels dedicated to our international communities and we advertise directly to many countries in their native language. Our website also has individual landing pages for different languages in order for our global community to access the token easily. We also have a FOODSWAP page in different languages allowing people from around the world to buy directly from our website.

LONGEVITY

Foodbank is in for the long haul, the token is growing organically rather than with the massive pump and dump regularly associated with new tokens. This is because we are actively advertising globally but we are not trying to mislead people or promise anything we do not believe sincerely that we can deliver. Our goal is to grow your investment as quickly and as sustainably as possible, providing a solid investment for you and your future.

TOKENOMICS

FOODBANK tokenomics are:

2% of any sale goes into a marketing wallet

4% of any sale goes into a charity wallet

3% of any sale is redistributed to the other holders

1% of any sale goes into the liquidity pool

ORIGINAL SUPPLY

FOODBANK supply is currently 100,000,000,000,000,000

This is rather a high number and we started with such a high supply with the intention of carrying out a series of huge burns, not the 1% burns you see hyped with many meme coins. Our intention is to burn 50-75% of the current supply.

25% of the tokens are currently locked for 1 year

PLANNED BURNS

The planned burns will occur as the holder numbers increase as follows:

500 Holders – 10% burn

1000 Holders – 10% burn

5000 Holders – 10% burn

10000 Holders – 10% burn

25000 Holders – 10% burn

When this 50% burn has been completed, we will then take a view on whether to burn the 25% of tokens held in the locked wallet.

HOW TO BUY FOODBANK

FOODBANK can be purchased from pancakeswap or poocoin

How to Buy FoodBank Coin

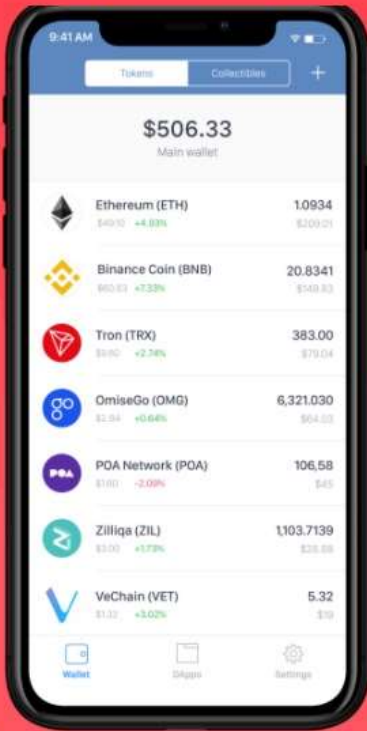

- 1. INSTALL METAMASK / TRUST WALLET**

Download the Trust Wallet app on your smartphone, install the wallet and make a secure backup of your key phrase.
- 2. SETUP BINANCE SMART CHAIN IN YOUR WALLET**

log in to Binance, Make sure you own Binance Coin and go to the Binance Coin withdraw page, Open your Trust Wallet, click on Smart Chain and then on Receive. Copy the wallet address and deposit your BNB to your Trust Wallet.
- 3. DEPOSIT BNB IN YOUR WALLET**

After you received the coins, check Trust Wallet if Browser is visible between Wallet and DEX. If not, go to Safari and type `trust://browser_enable` to activate the dApp Browser. Click on Browser.
- 4. BUY ON PANCAKESWAP**

Click on Pancakeswap. Click on Connect Click on the gear and type in 11% slippage. At the top, enter the number of BNB you want to convert to a **Foodbank coin**. Below that field, click on Select a currency, paste `0x6359f0d2004433d2a38b03dce8f966cc243f1da9` and Foodbank coin will appear. Click on Swap.

FOODBANK can also be purchased directly from our website using our FOODSWAP page

Why you should buy FOODBANK Right Now

Foodbank crypto is a cryptocurrency designed to maximise your profit, while supporting and funding foodbanks in Vietnam, Pakistan, India, UK and the US, anywhere at all that our holders are.

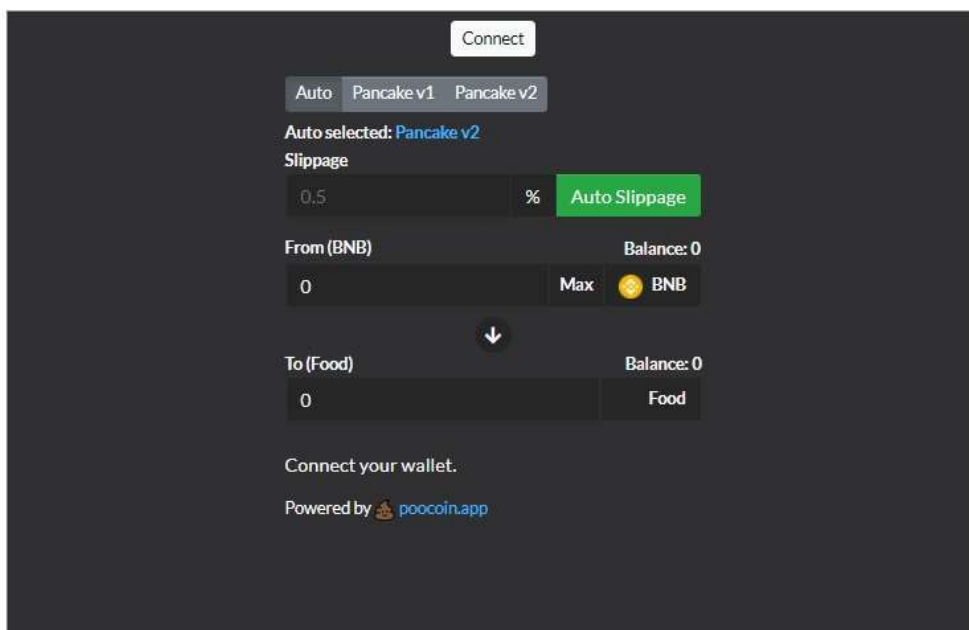

To date, people who bought foodbank token when it was launched on the 26th September 2021 have increased their money by 800%.

As well as increasing the token value we also reward your loyalty. Every single time someone sells Foodbank you will receive more tokens for free.

A 3% share of every sale made is redistributed to the remaining token holders.

Do not miss out on this opportunity. Buy Foodbank now and watch as we increase your investment while funding local foodbanks.

Connect your wallet and buy FOODBANK Token now

The screenshot shows a dark-themed web interface for purchasing Foodbank tokens. At the top, there is a 'Connect' button. Below it, a row of tabs includes 'Auto', 'Pancake v1', and 'Pancake v2', with 'Auto selected: Pancake v2' displayed underneath. A 'Slippage' section shows '0.5 %' and an 'Auto Slippage' button. The 'From (BNB)' section has a value of '0', a 'Max' button, and a BNB icon, with a 'Balance: 0' indicator. A downward arrow separates this from the 'To (Food)' section, which also shows '0' and a 'Food' icon, with another 'Balance: 0' indicator. At the bottom, it says 'Connect your wallet.' and 'Powered by poocoin.app'.

PROTECTING YOUR INVESTMENT

First and foremost, we appreciate that FOODBANK is an investment, and we must therefore do everything possible to grow our holder's investment.

While we intend to give as much money as possible to charity, we cannot do this at the risk of devaluing the token and dumping the token price. Consequently, we will allow the Charity Wallet reserves to grow and the token value to increase to the point where we can safely start to sell the Charity Wallet tokens without adversely affecting the token value.

By managing how we sell tokens within the Charity and Marketing Wallets in a manner which considers the affect these sales have on the token price, we hope to minimise the affect these token sales have on the holder's wallet values. Too often with charity tokens you will see a 50% devaluing of the token when the dev sells tokens in the charity or marketing wallet. This deliberate pump and dump of the token by the token development team is extremely disheartening to the token holders and this disregard for our holder's investment capital is not acceptable to us.

HOW WE WILL DONATE TO FOODBANKS

We intend to donate primarily to the foodbanks local to the top holders of the token or to groups of holders who cumulatively own a large % of the circulating supply of the tokens.

When we donate money to foodbanks, we will do so to maximise the return on your investment.

Any donation to a foodbank will also take into consideration how much publicity that foodbank or community can bring to FOODBANK.

We will discuss how the receiving foodbank can help advertise FOODBANK, what social media or local news coverage can they bring to the token.

Another consideration is how crypto friendly the surrounding community and indeed the country is. We are mindful that some countries are pro or anti crypto generally and as a result some countries have populations who are either very aware of crypto and use it daily or are generally sceptical of crypto. It is of more benefit to our token holders for us to give funds to a foodbank in a country where crypto is widely adopted.

OUR FIRST FOODBANK DONATION

We understand that foodbanks generally may not be very crypto aware, certainly it appears to be unusual for them to even have a method of donation in cryptocurrency and this has been an issue for us.

Our donation MUST be made in a cryptocurrency to avoid the transaction being flagged via the normal banking system and also to make the transaction visible and irrefutable to our investors.

We have therefore had to instruct our first nominated Foodbank (<https://airdrie.foodbank.org.uk/>) on how to receive and then convert cryptocurrency into money which can be transferred (by them) into the charity bank account.

HOW HAVE WE DONE THIS?

- 1 – WE HAVE TALKED THE FOODBANK TREASURER THROUGH SETTING UP A COINBASE ACCOUNT.
- 2 – WE HAVE TALKED THE FOODBANK TREASURER THROUGH CONNECTING THAT COINBASE ACCOUNT TO THE CHARITY BANK ACCOUNT – WE HAVE THEN CHECKED TO MAKE SURE THAT IT IS INDEED THE CHARITY BANK ACCOUNT WHICH IS LINKED TO COINBASE.
- 3 – WE ARE MINDFUL THAT NOT EVERYONE WILL USE COINBASE AND SO WE NEED TO SELL OUR FOODBANK TOKENS INTO A CURRENCY WHICH HAVE BOTH AN ERC20 AND BEP20 VERSION. WE HAVE SELECTED USDT FOR THIS.
- 4 – HAVING SOLD OUR TOKENS AND CONVERTED TO USDT, THIS IS THEN TRANSFERRED TO THE RECEIVING FOODBANKS WALLET, THE TRANSACTION BEING VISIBLE TO OUR HOLDERS VIA BSCSCAN.
- 5 – OUR AGREEMENT WITH THE RECEIVING FOODBANK IS FOR THEM TO THEN PUBLICISE THE DONATION ON THEIR WEBSITE AND OTHER SOCIAL MEDIA STREAMS. WE CAN THEN SHARE THESE POST WITH OUR INVESTORS TO DEMONSTRATE THAT THE DONATION WAS INDEED MADE.

DISCLAIMERS

Self-Assessment of Sophisticated Purchaser

FOODBANK tokens should be undertaken only by individuals, entities, or companies that have significant experience with, and understanding of, the usage and intricacies of cryptographic tokens, like Binance Coin (“BNB”), and block-chain based software systems. Purchasers should have functional understanding of storage and transmission mechanisms associated with other cryptographic tokens. Further purchasers will undertake self-assessment on their knowledge and understanding of financial contracts, smart contracts, and financial derivatives. Only individuals, entities, or companies that understand fully the functionalities, capacities and constraints of the FOODBANK token should proceed and purchase it.

Price Volatility Disclaimer

The FOODBANK tokens do not represent any formal or legally binding investment. Cryptographic tokens that possess value in public markets, such as BNB, have demonstrated extreme fluctuations in price over short periods of time on a regular basis. Purchasers should be prepared to expect similar fluctuations. Such fluctuations are the result of supply and demand forces experienced by token users. By purchasing FOODBANK tokens, users expressly acknowledge and represent that they fully understand that the token may experience volatility in pricing and will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of FOODBANK token.

Liability Disclaimer

Purchasing FOODBANK token entails a number of risks concerning its valuation, safekeeping, and continuous access to technical infrastructure (access to Internet, online exchange account, etc.).

Users expressly acknowledge and represent that they fully understand that the token may experience volatility in pricing, liquidity, technical access, data breaches and will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of FOODBANK token. As such the issuer will not be held liable for any damages that may arise from any lawful actions it undertakes. The lawful actions will be determined based on the legislation in force of the jurisdiction of the issuer’s corporate registration.

Taxation Disclaimer

When purchasing the FOODBANK token users acknowledges that they fully understand that they are solely responsible for any tax reporting and payment, levies, or similar dues to tax authorities of their respective jurisdiction. Users will not seek to hold the issuer liable for any losses or any special, incidental, or consequential damages arising from, or in any way connected to, the purchase of FOODBANK token as far as taxation issues are concerned.

Users acknowledge that they fully understand that the details of their dealings, accounts and trading history information may be shared by the with the tax and law enforcement authorities that request them via legal and legitimate means in connection to a criminal activity. · Disclaimer on costs of money transfer All costs of money, currencies, crypto assets, or others transfers of value are payable by the user.
